

Dear Parents and Students;

A Warm Greeting To All Of You,

I do appreciate all of you **dear parents** for your cooperation that you rendered to this institution for the year 2019-20. With your well wishes and encouragement we were successful to bring out good result.

The first thing that you parents expect from the school is the happiness of your ward and we are able to create an environment, where learning is encouraged. This is also means that children should fall in love with the very idea of learning itself. This prompts them to learn at all times. I do facilitate the active involvement of you dear parents in the development of your kids.

I extend a warm welcome to all you for this new academic session 2020-21. Although we are beginning a new session with unprecedented and unexpected situation due to the universal threat of “**Noval Corona Virus**” which after affecting the life in the whole world is now affecting our lives to the extent that the whole country is confined to their respective homes.

I do hope that you are taking good care of yourself and your family members and also spending quality times with them. This is the time which will always be remembered by your child as you play with them, help them in reading and understanding story books, sharing your values with them and relive your own childhood.

I believe, that every problem should be a chance for us to do our best and as the leading school we are always committed to provide the best solution. In order to contribute your **child's development** in the situation of present constraints, St. Mary's family has started with online classes content.

As promised, in the portal of your child you will be able to play online teaching content prepared by our dedicated teachers and that is made available in the CAMPUS CARE option in the portal and will be **fully operational by the evening of April 7th 2020**. We have tried to provide you the online assignments and videos prepared by our teachers, so that your ward can learn and can repeat learning whenever required.

I appreciate the zeal and enthusiasm shown by the dedicated faculties of **St. Mary's Sr. Sec. School** for preparing presentation and videos using limited resources, while sitting at home with other household chores and I am sure that this new platform will provide our students and teachers ample opportunities to learn and share as we will keep improving with the time and resources.

We look forward for your active co-operation and participation with us.

Stay safe and healthy.

God Bless You.

With Regards

Sr. Kalpana

Principal

St. Mary's Sr. Sec. School,

Jwalapur, Haridwar
